

## Mike Guarnieri

Associate

### Leadership/Industry Experience

Mike Guarnieri brings 23 years of experience as a global finance learning leader at General Electric Co. to his role with TRI Corporation. His career at GE spanned such areas as financial services, risk management, and Lean Six Sigma. He taught finance to both finance and non-finance participants, and he was also responsible for global management of finance training for GE's 10,000+ finance professionals, including members of GE's prestigious Financial Management Program (FMP).

Before joining the learning organization at GE, Mike was an underwriter of middle market financing at GE Capital, leader of its audit division, and was a member of several due diligence teams that worked on global acquisitions totaling about \$1 billion. He spent several years in GE's quality organization, focused on process improvement and operations management, ultimately becoming quality leader for a division of GE Capital.

Prior to joining GE, Mike was at Arthur Andersen LLC. He also has experience as an assistant controller in a medium-sized firm that manufactured and assembled electronic components and sensing devices.

### Past Positions
